

Carmen Casteras Roman

Carmen Casteras is an Intellectual Property (IP) and Technology Transfer Officer at Fusion for Energy (F4E). She manages the IP-related matters within the frame of F4E's activities. She collaborates with European and International Organizations, Laboratories, and Companies to share the know-how generated in the fusion and Big Science fields. She is also responsible for F4E Technology Transfer Program. She is fostering the commercial use by the industry of fusion technologies in non-fusion markets.

She holds a Bachelor of Laws (ESADE) and is a Certified Project Management Professional (PMI). She has more than 20 years of professional experience in the management of intangible assets. Before joining F4E in 2015, she worked as IP Lawyer at the Patent and Trade Mark Agency Clarke Modet & Co for 9 years. She protected the IP rights and formulated partnership and licensing agreements to generate and use the IP assets. She also worked as IP Manager at the Consultancy company Knowledge Innovation Market for 5 years. She defined the strategies and agreements for obtaining Return on Investment of intangible assets and trained entities in the field of know-how and IP commercialization.

Her career and expertise in IP management and Knowledge Transfer is focused on supporting entities to innovate and gain competitiveness in the market.
